

OPAL Fuels Welcomes Congressman Greg Murphy, M.D. to Sapphire Renewable Natural Gas Facility

ROSEBORO, N.C. – (May 8, 2026) – [OPAL Fuels](#) (Nasdaq: OPAL), a leading vertically integrated producer and distributor of renewable natural gas (RNG) welcomed Congressman Greg Murphy, M.D. (NC-03) to its Sapphire RNG facility at the Sampson County Landfill in Roseboro, North Carolina. The visit included a tour of the facility and a meeting with OPAL Fuels Co-Chief Executive Officer Adam Comora to discuss the role of domestic RNG production in strengthening American energy security, supporting Eastern North Carolina’s economy, and providing heavy-duty fleets with a cost-effective, lower-emissions alternative to diesel.

The Sapphire RNG facility captures naturally occurring methane from the decomposition of organic waste at the Sampson County landfill and converts it into pipeline-quality RNG that powers heavy-duty fleets across the country. The plant has a nameplate design capacity of approximately 0.80 million MMBtus (6.6 million gasoline gallon equivalents) per year.

“We were honored to host Dr. Murphy and showcase how facilities like Sapphire turn local landfill waste into American-made energy,” said Adam Comora, Co-Chief Executive Officer of OPAL Fuels. “Sampson County is home to a productive facility, and policies like the Section 45Z Clean Fuel Production Credit have given producers like us the confidence to invest in the infrastructure, jobs, and long-term economic growth that goes along with it. We appreciate Dr. Murphy’s leadership and his interest in seeing this work firsthand.”

I enjoyed touring the OPAL Fuels facility in Roseboro and meeting with senior leadership to discuss the future of renewable energy development in Eastern North Carolina,” said Congressman Greg Murphy, M.D. “These conversations are critical as we work to support policies that encourage responsible energy development, strengthen our workforce, and expand opportunity across the region. America needs reliable energy in all forms that is safe and secure, powers our economy, and keeps our beautiful ecosystems healthy.”

RNG produced at facilities like Sapphire is one of the most readily scalable solutions available today for heavy-duty transportation. By capturing methane that would otherwise be released or flared and converting it into vehicle fuel, RNG gives fleet operators greater pricing stability and lower operating costs compared to diesel, while also delivering meaningful domestic energy security advantages

About OPAL Fuels

[OPAL Fuels](#) (Nasdaq: OPAL) is a leader in the capture and conversion of biogas into low carbon intensity RNG and renewable electricity. OPAL Fuels is also a leader in the marketing and distribution of RNG to heavy duty trucking and other hard to decarbonize industrial sectors. For additional information, and to learn more about OPAL Fuels and how it is leading the effort to

capture North America’s harmful methane emissions and decarbonize the economy, please visit www.opalfuels.com.

Forward-Looking Statements

Certain statements in this communication may be considered forward-looking statements within the meaning of the “safe harbor” provisions of the United States Private Securities Litigation Reform Act of 1995. Forward-looking statements are statements that are not historical facts and generally relate to future events or OPAL Fuels’ (the “Company’s”) future financial or other performance metrics. In some cases, you can identify forward-looking statements by terminology such as “believe,” “may,” “will,” “potentially,” “estimate,” “continue,” “anticipate,” “intend,” “could,” “would,” “project,” “target,” “plan,” “expect,” or the negatives of these terms or variations of them or similar terminology. Such forward-looking statements are subject to risks and uncertainties, which could cause actual results to differ materially from those expressed or implied by such forward-looking statements. New risks and uncertainties may emerge from time to time, and it is not possible to predict all risks and uncertainties. These forward-looking statements are based upon estimates and assumptions that, while considered reasonable by the Company and its management, as the case may be, are inherently uncertain and subject to material change. Factors that may cause actual results to differ materially from current expectations include various factors beyond management’s control, including, but not limited to, general economic conditions and other risks, uncertainties and factors set forth in the sections entitled “Risk Factors” and “Cautionary Statement Regarding Forward-Looking Statements” in the Company’s annual report on Form 10-K and quarterly reports on Form 10-Q, and other filings it makes with the Securities and Exchange Commission. Nothing in this communication should be regarded as a representation by any person that the forward-looking statements set forth herein will be achieved or that any of the contemplated results of such forward-looking statements will be achieved. You should not place undue reliance on forward-looking statements in this communication, which speak only as of the date they are made and are qualified in their entirety by reference to the cautionary statements herein. Except as required by law, the Company expressly disclaims any obligations or undertaking to release publicly any updates or revisions to any forward-looking statements contained herein to reflect any change in the Company’s expectations with respect thereto or any change in events, conditions, or circumstances on which any statement is based.

Disclaimer

This communication is for informational purposes only and is neither an offer to purchase, nor a solicitation of an offer to sell, subscribe for or buy, any securities, nor shall there be any sale, issuance or transfer of securities in any jurisdiction in contravention of applicable law. No offer of securities shall be made except by means of a prospectus meeting the requirements of Section 10 of the Securities Act of 1933, as amended.
